The board of trade met last Friday evening in the council chamber. A blue print of G.E. Bousfield's subdivision "Mountain View Park," was submitted, prepared by James Hutcheon, C.E. Guelph. (This was later known as the Bousfield subdivision) It showed 120 lots, with streets etc. and a deviation of Court Street west along the C.P.R. to a point near the stone arch (over the Sixteen Mile Creek), the location of the proposed subway; thence north on the other side to connect with the addition. Mr. McCannell and Dr. Anderson reported that they had interviewed C.P.R. officials in the matter of the subway and had been told that the railway would not object to it, but would not contribute to the expense of construction. The committee was instructed to proceed with promotion of the subway.

From left, Heritage Milton Chair Brian Tyers and Mayor Gord Krantz present awards to Marc Gruehl of the York Trafalgar Corporation and local residents Mark Sturkenboom, Catharina van Es, Gayle Pearce and Malcolm Brekkie. - MICHAEL IVANIN / SPECIAL TO THE CHAMPION

Local residents who've worked hard to preserve the town's heritage have been recognized by town council and Heritage Milton.

The five individuals, who completed architectural restoration projects on three local properties, were presented with this year's Milton Heritage Awards Monday night.

Malcolm Brekkie and Gayle Pearce were honoured for taking a 2,000-square-foot Mill Street house built in 1877 that contained two apartments and transforming it into a 2,800-square-foot single-family home.

The project took about **two-and-a-half years** to complete and thousands of hours of labour that included **stripping about four pounds of paint off each shutter**, said Pearce.

"But it was a labour of love," she said. "It's something that I've wanted to do since I was very young. It was rewarding to reveal the house after years of modifications and turn it back into a single-family house."

Historical Homes of Milton

Volume 1

Page 42

30 COURT ST. NORTH
Part of Lot 14, Concession 2, Trafalgar
Built in 1881

This beautiful two storey frame residence was built in 1881 for John Lyon, postmaster.

It was one of the first homes to be built on Court St. North after Joseph Martin had opened the road as an access to the Credit Valley Railway station. The street was also sometimes referred to as Station Road.

The house itself was constructed by expert craftsmen using the superb pine materials prevalent in that period. The exterior was covered with tongue and groove siding and the windows trimmed with attractive carvings. The interior of the house features high ceilings, is well trimmed in heavy pine baseboards and finished with panel doors. The carved stairway bannister is exceptional.

John Lyon, son of William Durie Lyon, merchant, mayor, member of the legislature, magistrate and postmaster, was born in Milton in 1855. During the busy career of his father, John operated the family store at the southeast corner of Charles and Main St., since demolished.

By 1882 John was listed in the Professional Directory of Ontario as postmaster, a responsibility he held until his death in 1892.

On March 26, 1912 Christine Lyon sold the property to Thurzie McCurdy, spinster, who lived here until 1938.

The Stewart Lockie family has had possession for 50 years, since 1941, and has maintained it as closely as possible to its original design.
