<b>Purpose of Report</b>	As per Section 11.1 of Purchasing By-law No. 061-2018, emergency expenditures shall be reported to Council for information.
<b>Background information</b>	<p>In the summer of 2024 Aqua Tech Solutions Inc. was awarded design for the 2024 Storm Sewer Rehabilitation Project (24-01-00509) which included CCTV storm sewer investigation. Through the fall of 2024, multiple locations of storm sewer cross connections were identified. These locations include residences on:</p> <ul style="list-style-type: none"> <li>• Morse Place</li> <li>• Birch Avenue</li> <li>• Sunnyvale Crescent</li> <li>• Valleyview Crescent</li> <li>• Moorelands Crescent</li> </ul> <p>At these locations, residential sanitary services were mistakenly connected to the Town's storm sewer system when the homes were originally constructed. These cross connections are considered spills by the MECP (Ministry of the Environment, Conservations and Parks). Consistent with the Town's SOP for Sanitary/Storm Sewer Cross Connection, the spills were reported to the MECP Spills Action Center, which requires the Town to restore the connections as fast as reasonably possible.</p> <p>As a result, this work required emergency contract work.</p> <p>An emergency contract award was made to Graham Bros.</p>
