Subject: 180-194 Bronte Street South, Milton

Hello

As a long time resident in the area of the proposed development at the above address I have some concerns. The proposal for the above site is for 9 floors in height. I believe any further development along Bronte Street South should be limited to 5 floors in height. This would allow for plenty enough density and give a more uniform look to the street along the west side.

In my opinion the apartment complex at 122 Bronte Street South at 9 floors in height should never have been allowed to happen.

Let's not repeat this mistake and keep this already densely populated residential area both functional and appealing.

I look forward to the public meeting on this site.

Thank you for your consideration

Subject: Dawson Cres Milton

To Whom this May Concern,

The residents of Dawson Cres agree that destroying the Green Space in the area would be detrimental to the natural species living in their original environment,

We will not accept nor agree to the destruction of these trees that provide a home for racoons, rare birds, squirrels, chipmunks and rabbits.

Inevitably, due to the vehicle parking spaces, Bronte Street South will be congested at all times of the day; particularly during rush hour when it is a struggle for anyone on Dawson Crescent to go north bound,

Creating a 9 storey development is not only visually unappealing for those directly affected, but in addition this will affect numerous residential surrounding streets.

Who will be responsible for the intolerable noise pollution from the construction site? Let it be known that Dawson Cres already encounters countless trains daily.

Your need for greed is not considering the fact that you are significantly decreasing the value of all the freehold townhomes on Dawson Cres.

Please advise asap on how you will address these urgent and pending concerns as we intend to take this pending issue to social media asap.

Thank you for your email. The application materials haven't yet been uploaded to the Towns' website. I have copied the Town's Planning Administrator, Debbie Johnson, who can advise as to when the files have been uploaded. When available (I would assume early next week), they will be accessible at the following link:

<https://www.milton.ca/en/business-and-development/ward-1-applications.aspx>

Should you have any additional questions or comments, please do not hesitate to contact me.

Aaron

Where can the public view/have access to the drawings prepared for the subject application.

Thank you.
